MEMORANDUM FOR THE RECORD**SUBJECT: Comptroller Input to Proposed OLL Data Base**

25X1 1. I met with [] today, to discuss consolidating
the Comptroller's information about exchanges with Congress
25X1 with information from OLL files in order to create a single
data base for use by both offices. I briefed Gary on our
discussions with [] concerning the development of a
full text search system with software controls on access to the
full data base. Gary was enthusiastic about the idea and quite
receptive to incorporating Comptroller files into the system.

2. The Comptroller's holdings are extensive. Last year
about 1000 Q&A's were entered into the Comptroller's automated,
key word search, Wang Alliance system. The automated part of
their holdings is partially complete for 1984, fully complete
for 1985, and up to date for 1986. Records which precede
1984--and some for 1984--are in hard copy. Records related to

25X1 []
25X1 [] In order to include them in our data
base, the Comptroller will need DO authorization.

3. As matters were left with Gary, we will proceed on the
assumption that the Comptroller will welcome the creation of
the consolidated data base. Once we have received optional
approaches to the new system, we will discuss them in more
concrete terms with the Comptroller.

25X1 []
Chief, Liaison Division, OLL
